

Damp housing in London questionnaire

I'm an MA student currently at Goldsmiths, researching damp housing in London. I am looking at the relationship between dampness and processes like regeneration and gentrification in the city. As part of this, I am looking to listen to people's experiences of damp in London. I am sending out this questionnaire, and will be doing interviews at a later date.

I'm happy to answer questions about my research. My email is elarashurety@gmail.com. Please get in touch if you would also prefer these questions in a different format, or would prefer to speak in a more informal format (e.g. messaging, by phone).

The responses to this questionnaire will be used as part of my final MA project. No names will be used, and any identifying information will be removed.
